SDUSD CSEC Awareness Program Mission Statement

The safety of our students is a primary concern of the San Diego Unified School District.

The district’s CSEC Awareness Program provides training and resources to teachers, administrators, support staff, and community organizations to prevent, prepare, and respond to suspected recruitment and involvement in Human Trafficking activities.

SDUSD CSEC Awareness Program Vision Statement

The goal of this program is to ensure that all SDUSD staff are well informed about the issues, warning signs, reporting protocol, and available resources related to CSEC. Students will be well equipped to identify recruitment tactics of facilitators of exploitation and know where to turn for help.
